# Welcome to Our First Annual Invitational Female Sale

With three good club calf sales behind us we decided to hold a Female sale, since we believe an auction of registered cattle is the best way to promote our herd and the breed.

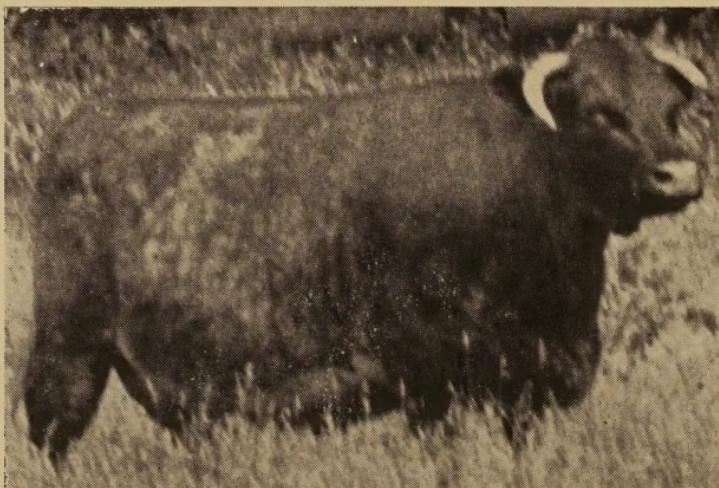

We are selling females that we should be keeping, but we realize that the first sale has to be a success and this can only be done with quality. The heifers we are selling from the Britomac herd are truly the kind that belong right in our breeding program.

With an annual club calf sale and a steady increase in our cow herd it is not possible to hold a Female sale every year, so we invited six good friends and fellow breeders to sell cattle with us and help establish this sale as an annual event.

The fact that these six breeders went all out to make this sale a success will be very much in evidence sale day. The cattle they are selling are a credit to their herds and can be bought with the confidence that they will do well for their new owners.

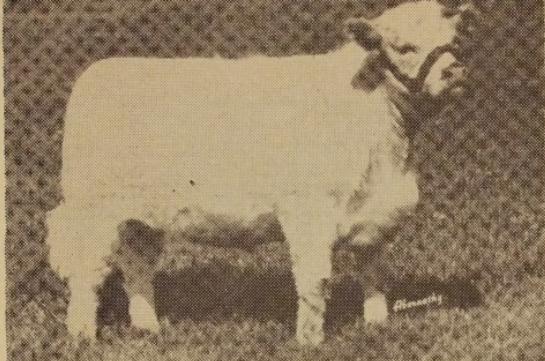

Plan to be with us on November 25, 1967. An outstanding group of females will sell from men who believe Shorthorns are the greatest breed of cattle.

FOURTH ANNUAL

**Shea Shorthorn Farms**  
*Club Calf Sale*

SELLING

**58 STEER & 30 HEIFER CALVES**

**Saturday, Nov. 25, 1967**

7:00 p.m.

# WELCOME TO OUR FOURTH ANNUAL CLUB CALF SALE

We are offering 58 steers and 30 heifer calves for the 1968 show season. We strive to produce calves that can win in tough competition through the selection of our herd bulls. Females we put back into the herd or any that we purchase must be the kind that can produce winning calves.

This is the first time in six years that a steer from our herd was not champion at a National show. However, calves we sold last year were among the champions at 21 strong shows this summer. We feel this is as important as a national champion, because it shows Shea calves can win consistently in the hands of many different feeders.

The thirty heifer calves we are selling are the kind that can win next summer and then be developed into dependable and profitable brood cows.

This herd was started with one Shorthorn heifer calf and has now grown to 135 females. The steer calves contain many, many potential champions.

We bought 18 steer calves from some of the leading herds in Kansas and they will suit the most discriminating buyers.

We hope to see you on Sale night. Even if you are not a prospective buyer come any way, we like to talk Shorthorns.

WALTER SHEA & SON
